A digital training log that does the work for you

EIT replaces paper lists and spreadsheets. Members register their own sessions in seconds, and the club gets a tidy and reliable overview – also over several years.

- 
Check in with a QR code
 Scan the code at the range, choose an activity and tap “Check in”. Done in a few seconds.
- 
Pay with Vipps
 Training fees and entry fees are paid with the same tap as the check-in – or later.
- 
Attest for firearms applications
 The police’s own form, filled in with your sessions and approved by the club in the app.
- 
Competitions
 Entries, relay list and results that update live – field and range.
- 
Courses and qualifications
 Sign-up with a waiting list, certificates and an overview of range officers.
- 
Activity requirement
 See how many sessions you have, and how many are missing, right on the home page.
- 
Calendar and duties
 Training, competitions, work days and who is on duty – with colour codes and notifications.
- 
Light and dark theme
 The light theme is easy to read outdoors in sunlight. The dark theme for evenings.
- 
Works offline
 Poor coverage at the range? The check-in is saved and sent when the connection is back.
- 
Kiosk for everyone
 A tablet at the range: tap your photo and enter your PIN – no phone needed.
- 
Club gun loans
 The person on duty lends by internal number, with a log and a reminder to return.
- 
Till and membership fees
 Ammunition, soft drinks and sweets, and the annual membership fee – with Vipps.
- 
Work days, incidents and statistics
 Volunteer hours, incident reports and the basis for the annual report.
- 
Documents and weapon cards
 Course certificates with the attest and the weapon card at the till – stored encrypted.
- 
Badges, keys and range checks
 Badge shooting with diplomas, keys with signatures and checklists for the range.

Members

Check in, pay, record results, enter competitions and courses, and request an attest for the firearms application.

Range officers and duty

See who is at the range, approve sessions and attests, lend club guns and use the till.

Administrators

Manage members, competitions, courses, membership fees, items, the firearms register, messages and the club’s settings.

Join and log in	3	Profile, theme and kiosk	13–15
Check in at the range	4	Courses, work days, purchases and incidents	16
QR screen and offline	5	For range officers and duty	17–18
Your home page	6	Messages from the club	19
Training log	7	For administrators	20–23
Attest for firearms applications	8	Documents, weapon cards and badges	24
Results and competitions	9	Keys, range checks and big screen	25
Paying with Vipps	10	Privacy and security	26
Calendar and duties	11–12		

Join and log in

New members sign up themselves with the club's link. A range officer approves the application, and you are notified when you are in.

- 1 **Open the club's link**
From the club's website, an email or by scanning the QR code at the range.
- 2 **Fill in name, date of birth and email**
Date of birth and shooter ID are used on the activity log for the police.
- 3 **Wait for approval**
A range officer approves you. Then you can log in.

Log in with Vipps

The club can turn on "Log in with Vipps". Then you don't have to remember a password, and name, email and mobile are filled in automatically when you sign up.

Add the app to your home screen

EIT can be installed as an app. **iPhone:** Share → Add to Home Screen. **Android:** tap "Install" on the home page. It then opens with one tap, and check-in works even with poor coverage.

Norwegian or English

Choose your language on the login page, in the menu or under My profile. Emails, notifications and PDFs follow your choice.

A member of several clubs?

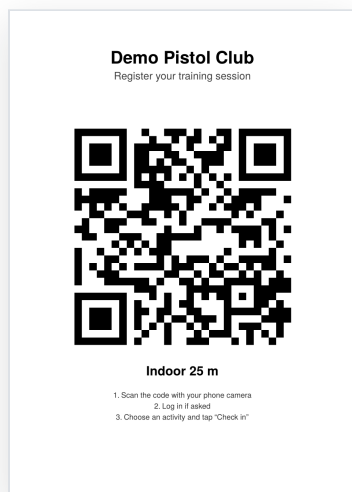

One account is enough. Switch club in the menu – and when you scan a QR code, the app switches automatically to the club that owns the range.

Join

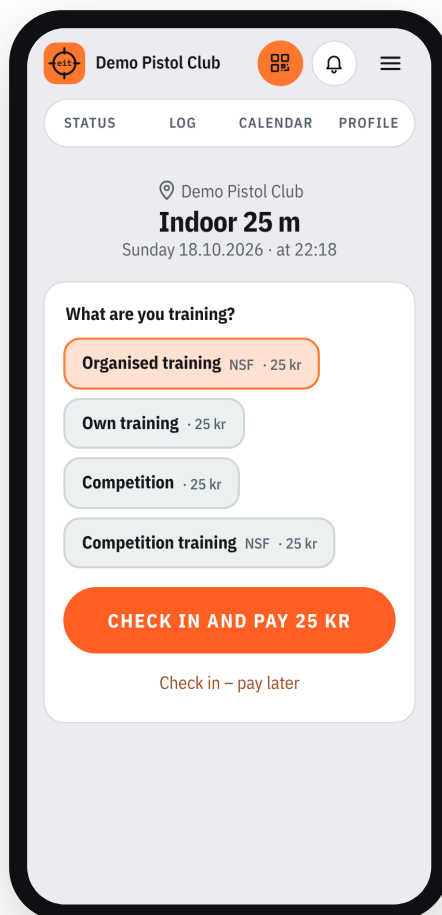

Log in

Check in at the range – in a few seconds

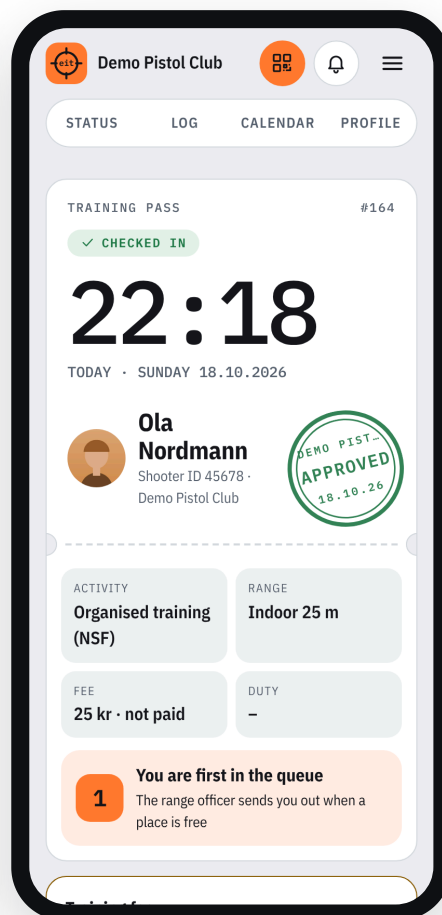

Each range has its own QR code, on a poster or a screen. Scan it with your phone camera or with the scanner in the app.

QR poster for the range

1 · Choose an activity

2 · Training pass

Everything on one screen

The activity is preselected: the one in progress in the calendar, otherwise what you chose last time. If a training session is in progress, the session is linked to it.

Check in and pay

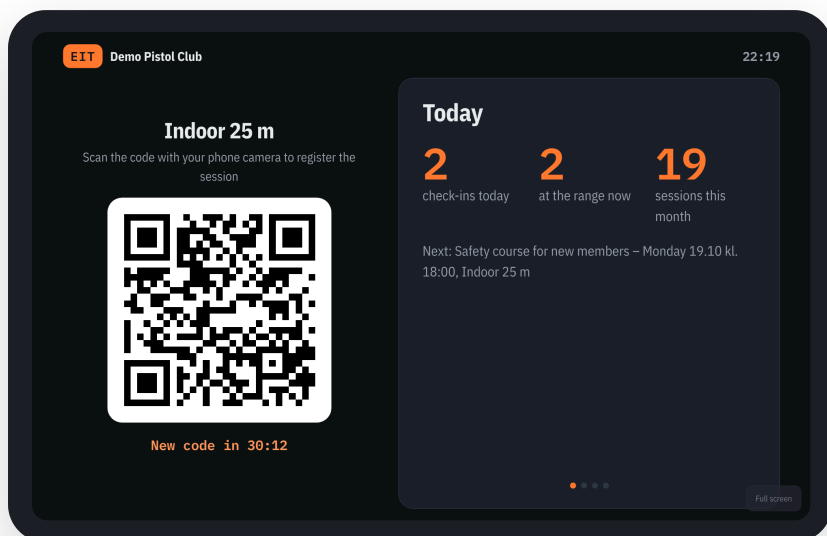

One button checks in and opens Vipps. If you would rather pay later, tap “Check in – pay later”.

Training pass

A big clock and an “Approved” stamp to show the range officer, together with your place in the queue. If you have already checked in, you are told – no double sessions.

Forgot to scan? Under **My log** → **Register training** you can add the session yourself. It must be approved by a range officer before it appears on the activity log.

QR code on a screen – and offline check-in

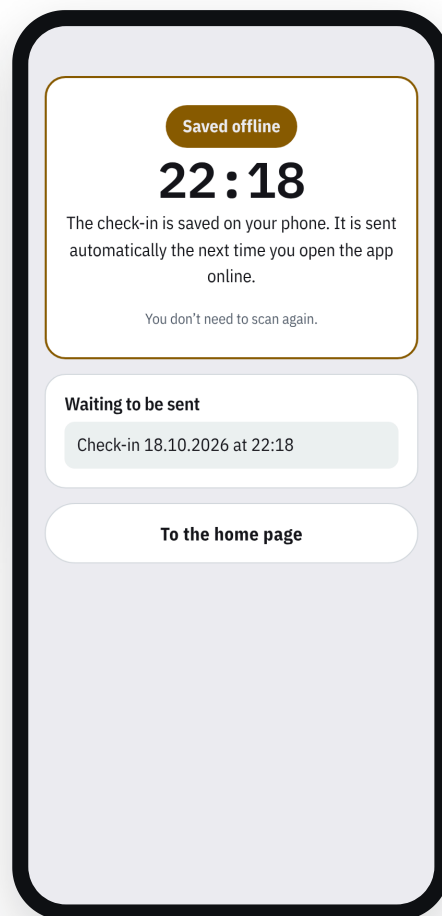

Display screen at the range with the current code

The code can change automatically

The club can let the QR code change by itself, for example every hour. It is then shown on a tablet or screen at the range, which always fetches the current code. A photo of the code shared in a group chat therefore stops working – you actually have to be at the range.

The previous code works for two minutes after a change, so nobody is rejected if they scan just as the code changes.

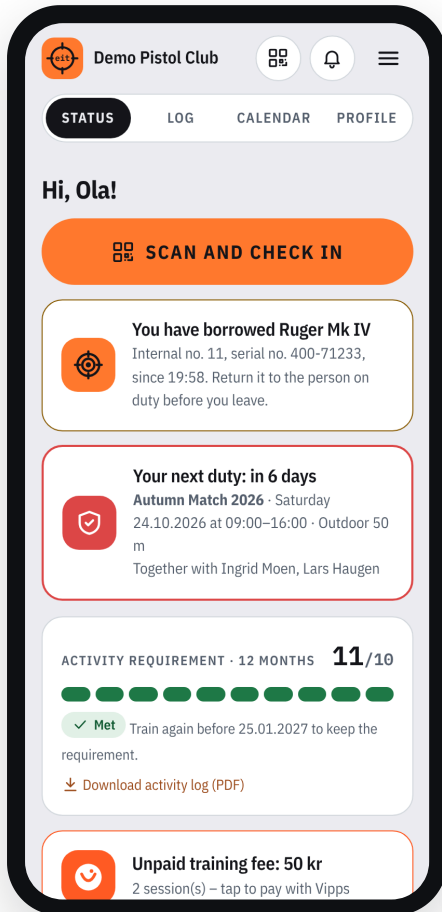

Scanned without coverage

Poor coverage? No problem

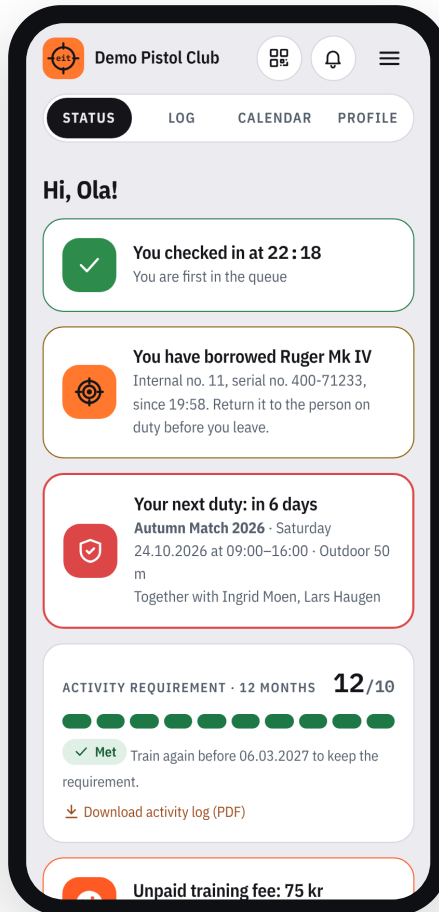

When the app is on your home screen, the check-in is saved on the phone if you are offline. It is sent automatically the next time you open the app online, with the time you scanned. The club checks that the code was valid at exactly that time.

The home page shows what matters now

The home page adapts: before you are at the range, while a training session is in progress, and after you have checked in.

Training in progress – one button to scan

After check-in

Range status

When a training session is under way, you see the time, how many are at the range and in the queue, and who is on duty – with a big “Scan and check in” button below.

You are checked in

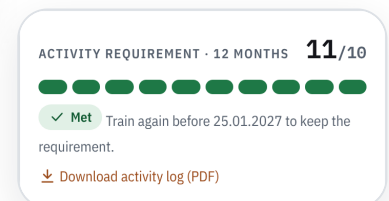

After check-in you see the time and your place in the queue, and one tap shows the training pass again.

Your next duty

If you are on duty, you see when and who you are on duty with.

Activity requirement

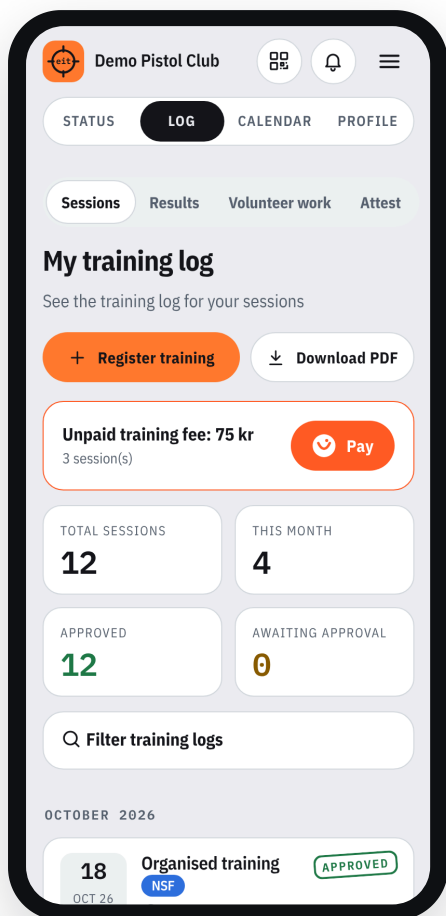

The segments show how many approved sessions you have in the period and how many are missing. Once the requirement is met, you see when you need to train again to keep it.

Unpaid fees and your profile

Unpaid sessions are gathered in one card with a Vipps button. If something is missing from your profile, such as date of birth or shooter ID, you get a short checklist.

Training log

My training log

All your sessions are gathered in one log, with statistics, status and any notes. Filter by period and activity.

12	18.10.2026	22:18	Organised training (NSF)	Indoor 25 m	QR at the range

The log is generated from the club's digital training log 18.10.2026 22:18. It shows sessions registered with a QR code at the range or approved by a range officer.

Place and date _____ Signature, chair/range officer Demo Pistol Club

post@demopk.no · www.demopk.no

The club's activity log (PDF)

- ✓ Name, date of birth, shooter ID, federation and all approved sessions in the period you choose
- ✓ Shows how each session was registered: QR at the range, kiosk, range officer or manually and approved
- ✓ The Results, Volunteer work and Attest tabs are right next to the sessions

For the firearms application, EIT fills in the police's own form – see the next page.

The attest for your firearms application – on the police form

EIT fills in the police's own form "Aktivitetslogg for våpensøknad" (activity log for firearms application) with your activities. A range officer or club official checks and approves in the app, and you download the completed form.

Utfyllt av EIT for Demo Pistolklubb. Godkjent 17.10.2026 av Kristin Berg. Kontroll: <https://app.eit.no/attest/kontroll/FEV7-AQU7-XHVV>

The police form, filled in by EIT (in Norwegian)

- 1 Choose sessions or competitions.** Approved sessions from the log, one per date. Competitions in EIT are filled in, and you add other competitions yourself.
 - 2 Send for approval.** The range officer sees the lines checked against the log and approves. Nobody can approve their own attest.
 - 3 Download and sign.** The form is signed by you and by the range officer/club official with the club's stamp, as before.
- ✓ Two forms: training and club competitions, and national and international competitions
 - ✓ Several completed forms when there are many lines
 - ✓ A verification code and page that shows what the club has approved

Sessions Results Volunteer work **Attest**

Attest for firearms application

EIT fills in the police's own form "Activity log for firearms application" (Aktivitetslogg for våpensøknad) with your activities. A range officer or club official checks and approves it in the app. You then download the form, and it is signed and stamped as usual before you send it with your application.

THE CLUB'S REQUIREMENT

12 / 10

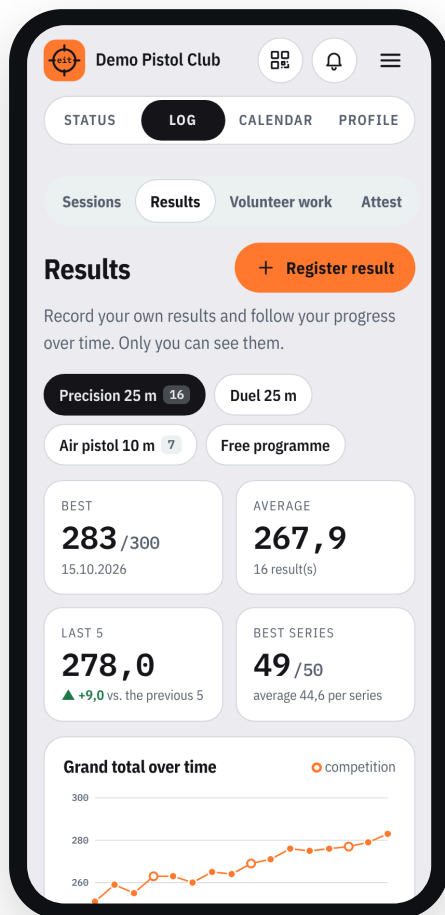

met - 12 months

Training and club competitions
Approved sessions from the log, one per date. Signed by range officer/club official.

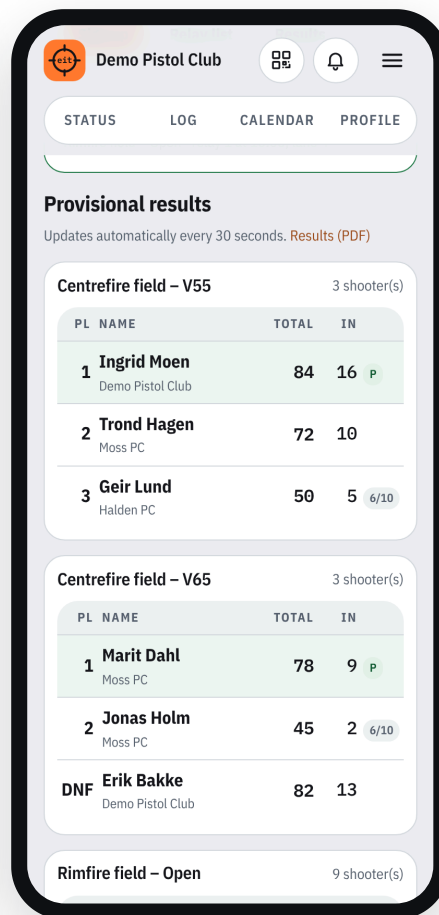

Attest in the app

Results and competitions

Record your own results and follow your progress over time. Enter competitions in the app, see the relay list and follow the results live while the competition is on.

Own results with a graph

Live results on the competition page

Results

Series totals and inner tens per event. You see your best result, average, the last five with a trend and your best series. The results are private.

Competitions

Entry for members and – if the competition is open – shooters from other clubs. The relay list and results can be downloaded as PDF.

Pay the training fee with Vipps

The club decides the price per session, and can set its own price per activity – for example own training or competition training. The payment goes straight to the club’s Vipps agreement.

How to pay

- ✓ **Right away:** “Check in and pay” opens Vipps directly.
- ✓ **Later:** all unpaid sessions are gathered, and you pay them in one Vipps payment.
- ✓ **Cash:** the range officer can register that you have paid in cash.

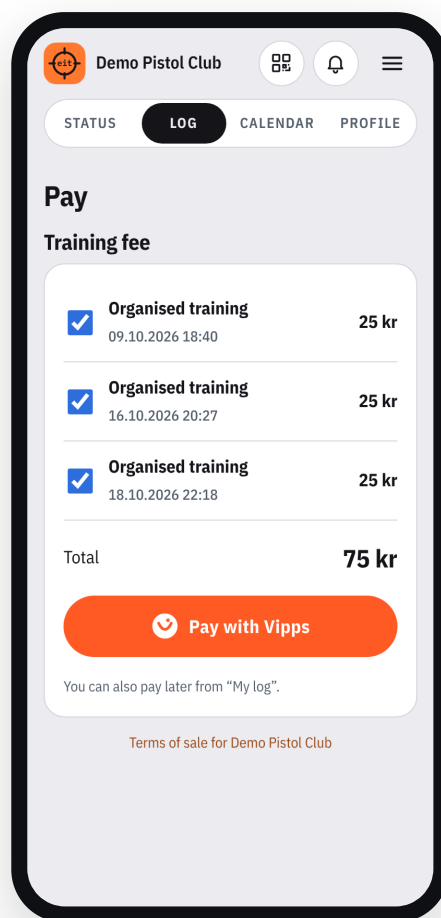

Competitions

Competitions can have their own entry fee. It is paid at check-in on the day of the competition, or in advance from the calendar when the club allows it. If it is prepaid, no new payment is required at check-in.

Exemptions

The club can exempt individual members, for example honorary members or members with an annual pass – with an end date if needed. Their sessions are then registered without a fee.

Receipts are in the Vipps app. The club’s terms of sale with organisation number and prices are linked from the payment page.

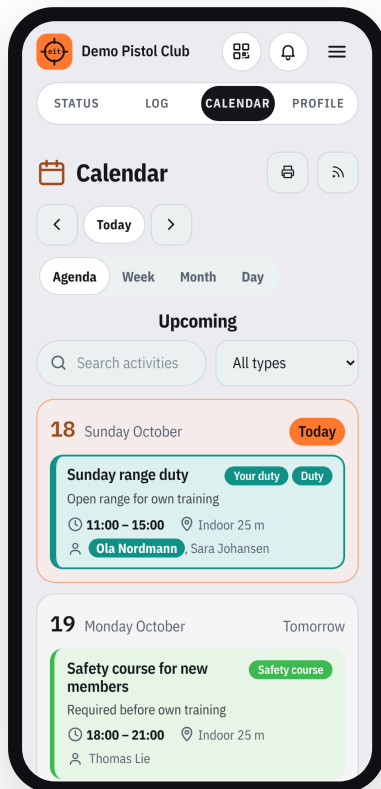

Pay several sessions together

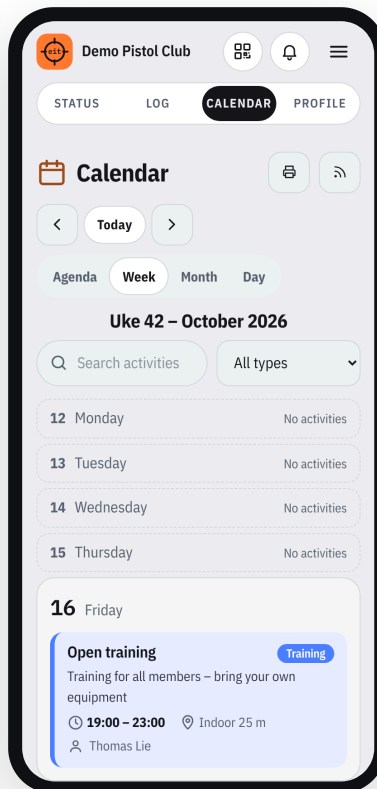

A colour-coded calendar

The calendar opens as an agenda with only the days when something is happening – “Tomorrow”, “In 3 days”. Switch to week, month or day, search, or filter by type.

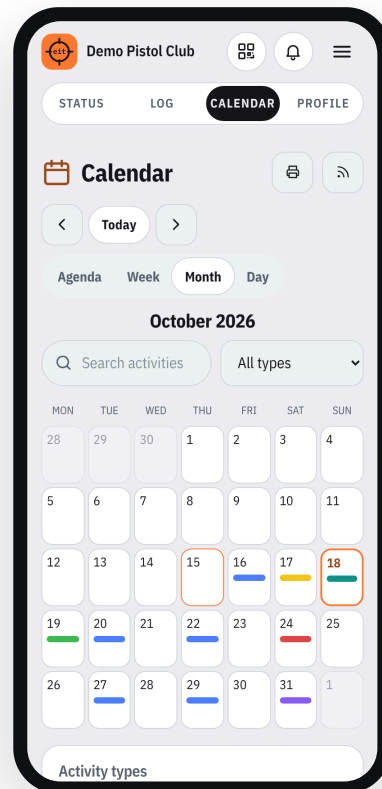

Training
Work day
Safety course
Annual meeting
Competition
Duty
Other

Agenda

Week (empty days shrink)

Month

Who is on duty

Each activity shows who is on duty and the responsible range officer, with a photo.

In your own calendar

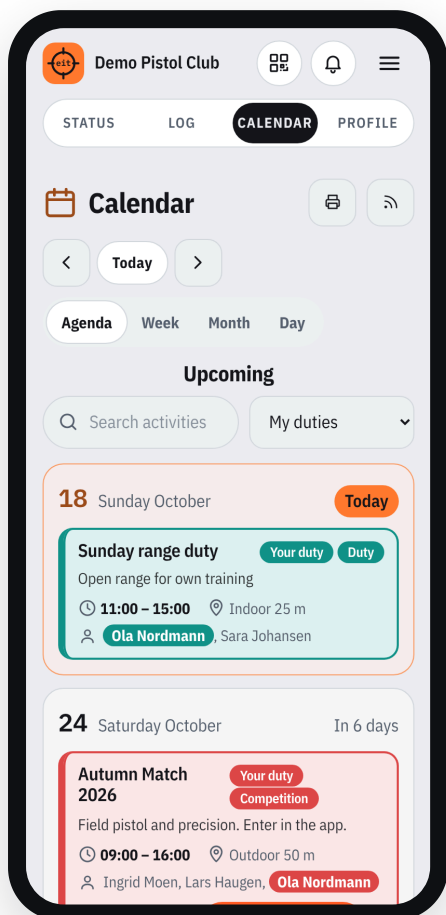

Subscribe to the club's calendar in your phone's calendar app (iCal), and it is kept up to date automatically.

Prepay competitions

Competitions with an entry fee get a “Pay in advance” button when the club allows it.

Duties – everyone knows who is responsible

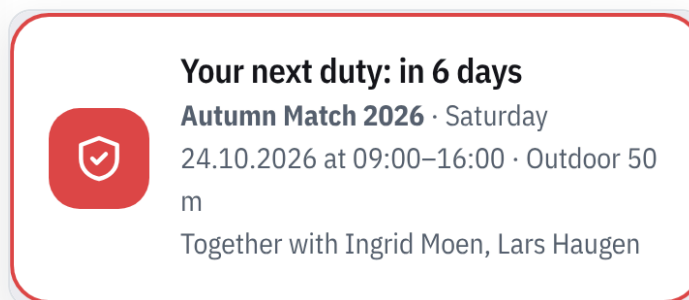

The range officer sets up duties in the calendar. Everyone sees who is on duty, and the person on duty is notified in good time.

“My duties” in the calendar

Your duty

Duties you have are marked “Your duty” in the calendar, and the home page shows your next duty and who you are on duty with.

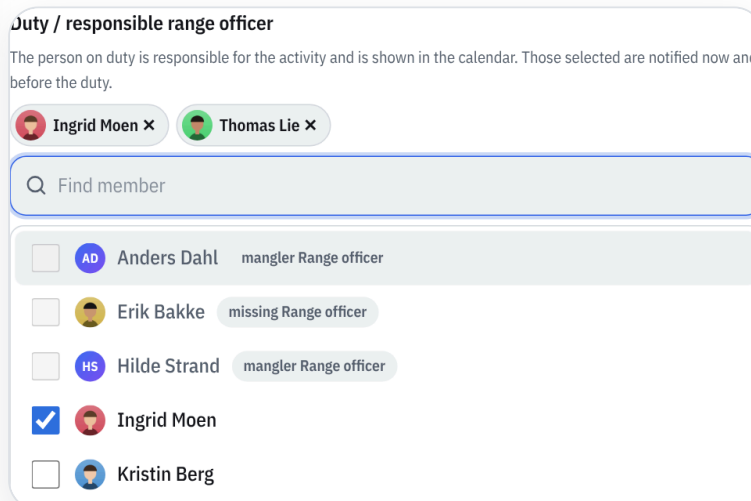

Notifications when you want them

You are notified when you are put on (or taken off) a duty. You also choose up to two reminders before the duty – in hours, days or weeks. The default is 1 week and 1 day before. Reminders that would arrive at night come at 20:00 the evening before.

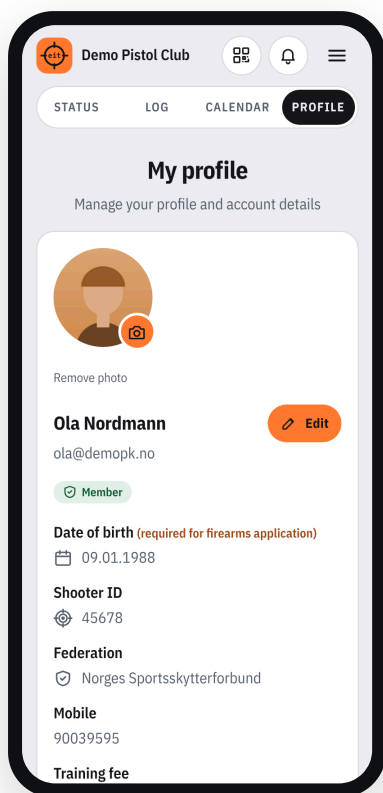

Easy for the range officer

A duty is put on a separate duty activity or on any training, work day or competition. Search for the members and select them. Recurring duties can be edited together, and a single date can be changed without touching the rest.

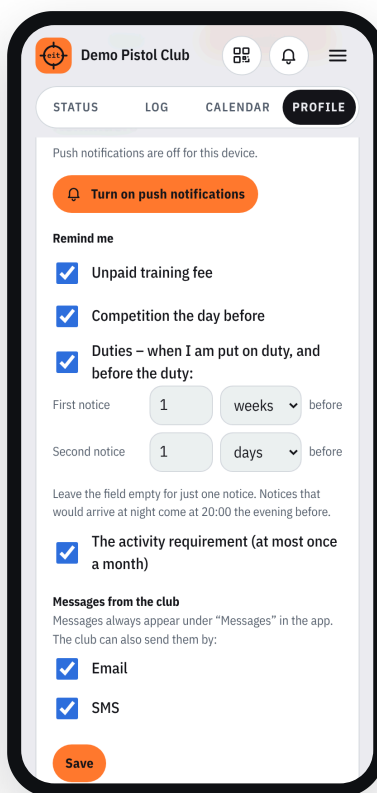

Choose who is on duty

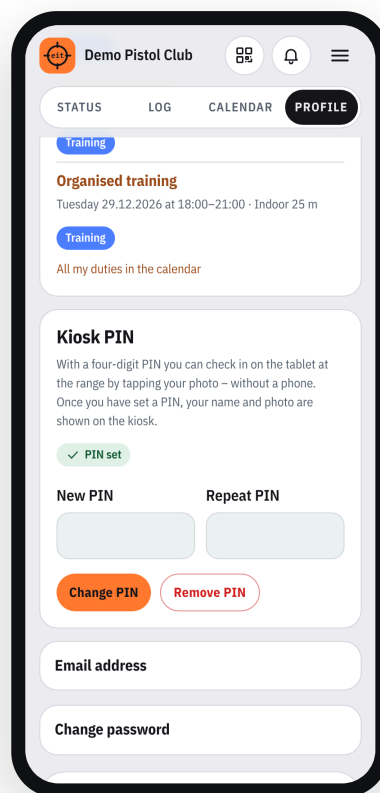

Profile, reminders, language and kiosk PIN

My profile

Reminders

Kiosk PIN

Profile and photo

Update your name, date of birth, shooter ID, mobile and language. With a profile photo the range officer recognises you at the range. The photo is cropped and scaled down on the phone, and location and other hidden information is removed.

Reminders

Choose what you want to be reminded of: unpaid fees, a competition the day before, duties and the activity requirement. As a push notification on the phone and/or by email. No notifications at night.

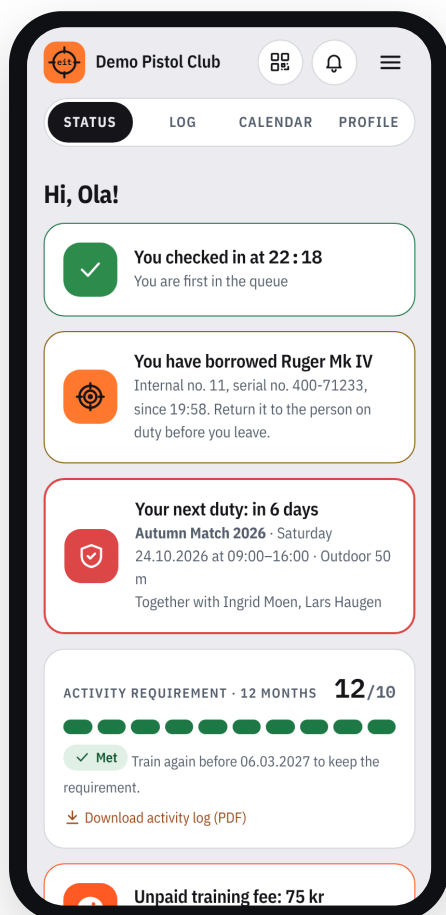

Kiosk PIN

Set a four-digit PIN to be able to check in on the tablet at the range without a phone. Once you have set a PIN, your name and photo are shown on the kiosk.

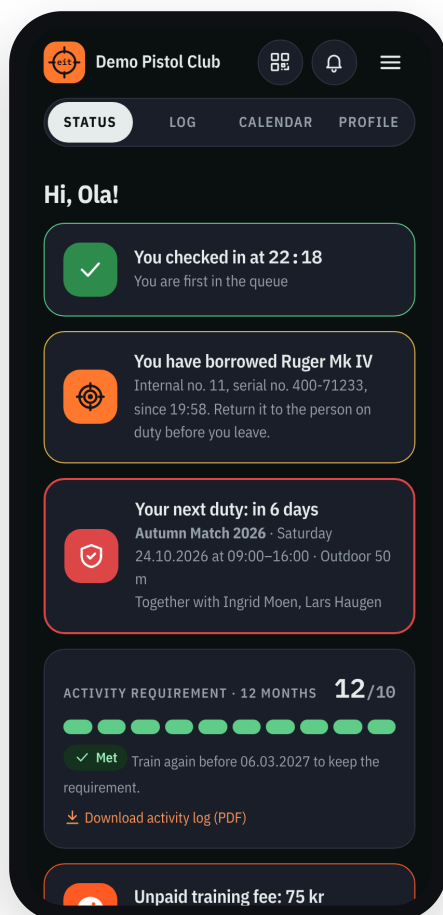

iPhone: push notifications work when the app has been added to the Home Screen and opened from there (iOS 16.4 or newer).

Light or dark – your choice

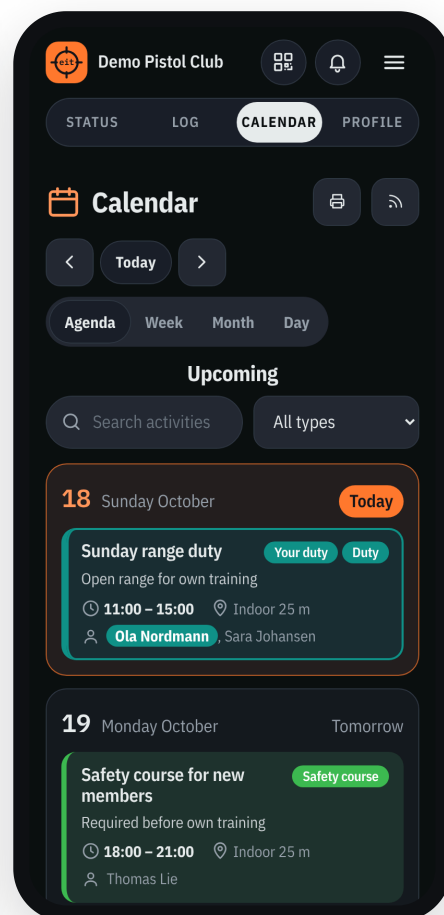

The light theme has high contrast and is easy to read outdoors at the range in sunlight. The dark theme is pleasant in the evening and gives the app its character: numbers in a typewriter font, round shapes and an orange signal colour. “Auto” follows your phone’s setting. Choose on the login page or under My profile.

Light

Dark

Calendar in dark theme

Big buttons

Buttons and fields are big and easy to hit with your thumb.

Easy to read

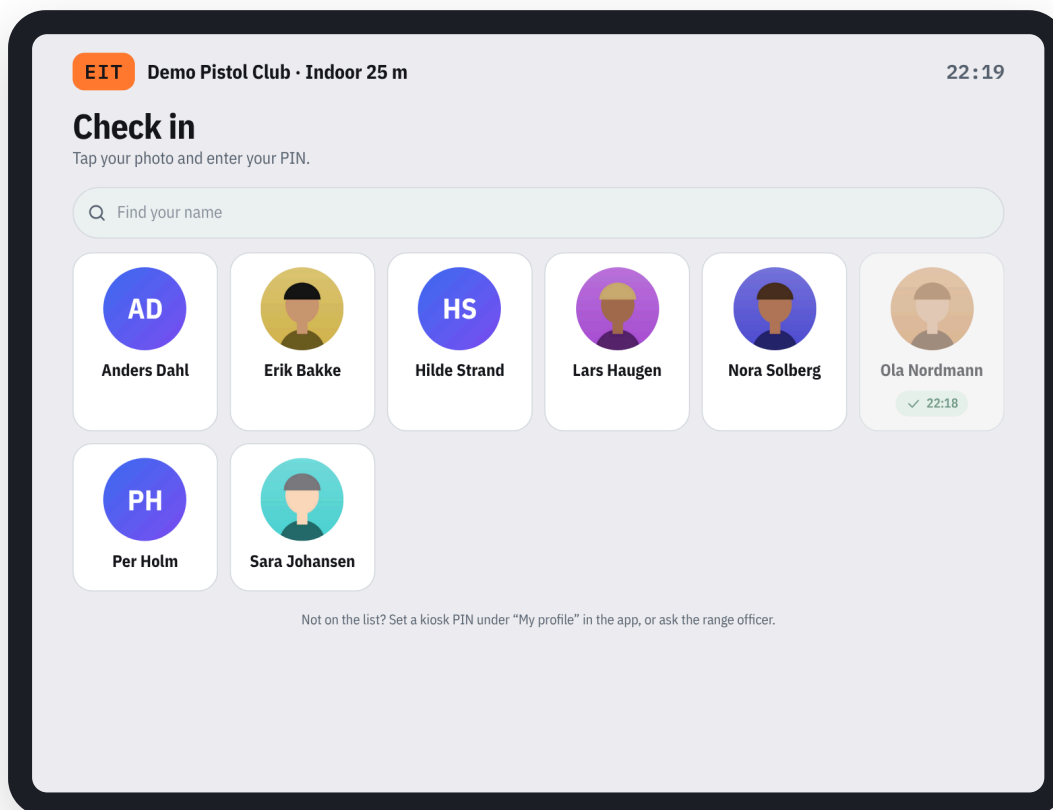

Large text and clear colours. The colour codes in the calendar are the same in both themes.

No double taps

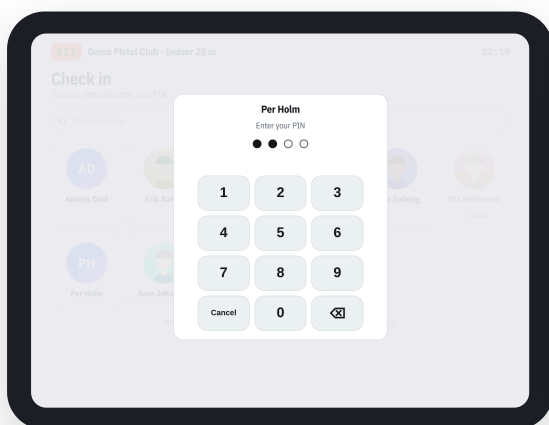

The button shows that something is happening, so a session or payment is not registered twice.

Kiosk at the range – for those without a phone

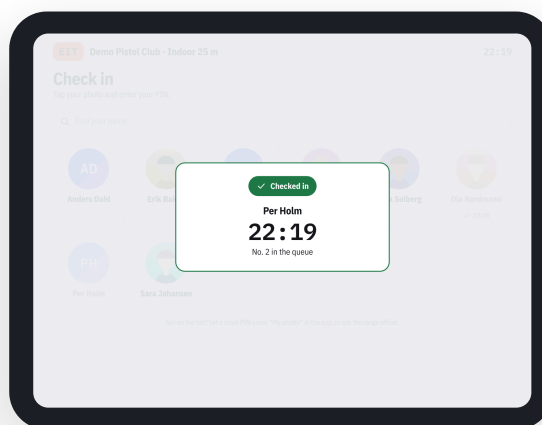

A tablet at the range where members check in by tapping their photo and entering a four-digit PIN. Perfect for members who don't have or don't want to use a smartphone.

Tap your photo – a green mark shows who has already checked in today

Enter the PIN

Checked in

Only members who have set a PIN themselves (or been given one by the range officer) are shown on the kiosk. After five wrong PINs the member is locked for 15 minutes. The fee is paid later in the app or in cash to the range officer.

Courses, work days, purchases and incidents

Course sign-up

Volunteer hours

Buy with Vipps

Report an incident

Courses and qualifications

Sign up for a safety course – even before you are a member. If the course is full, you are on the waiting list and get an email if you get a place. Course certificates and qualifications (for example range officer, with expiry date) are under My profile.

Buy in the app

Buy soft drinks, sweets and targets and pay with Vipps. You buy ammunition from the person on duty, who checks that you are allowed to.

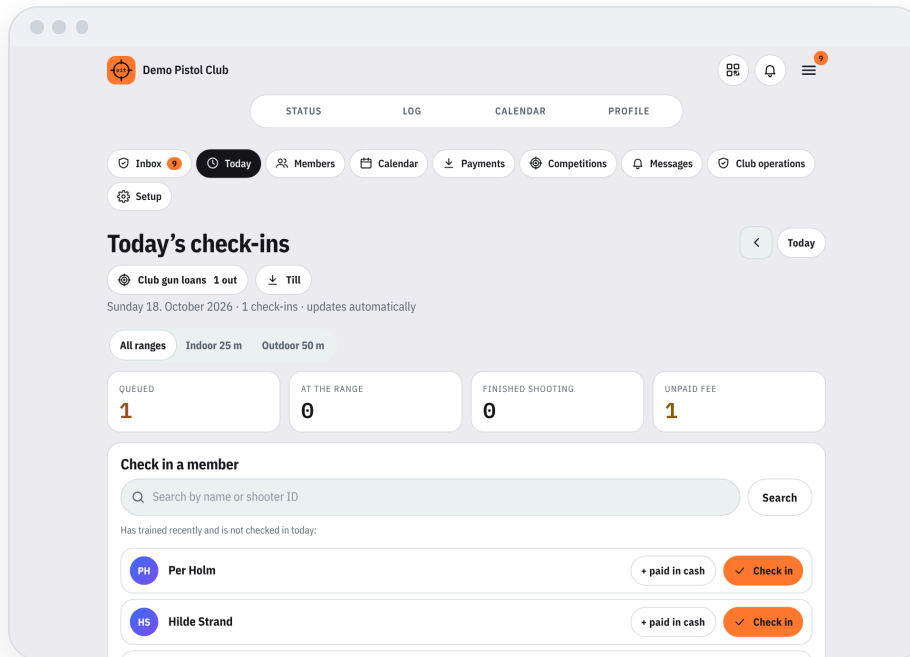

Work days

Register the hours you have worked, and see how far you have come towards the club's requirement. The board approves.

Incident reports

Report near misses, injuries or faults at the range – anonymously if you like. The board is notified and follows up. You also pay the membership fee in the app.

An overview of who is at the range

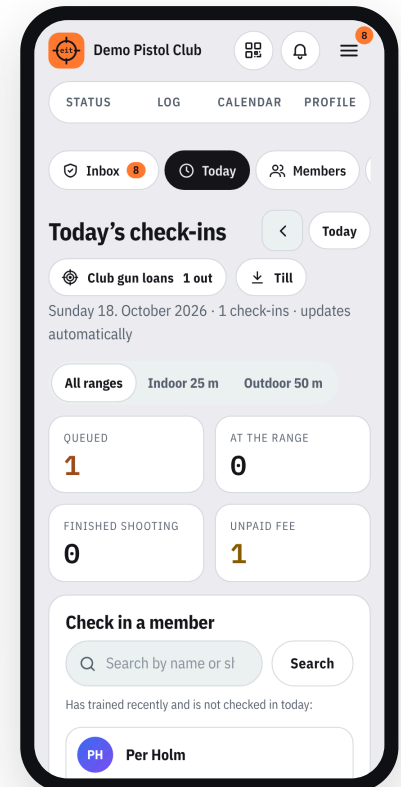

Today at the range – updates every minute

Today at the range

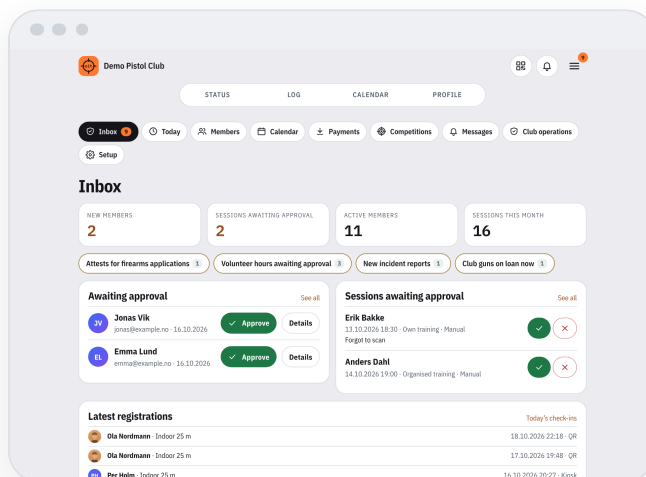

Who has checked in, when, at which range and whether the fee is paid. Go back to earlier days.

Check in a member

Search for the member or choose among those who have trained recently. One tap – with “paid in cash” if needed.

Just as easy on the phone

Inbox: what is waiting for you

Inbox

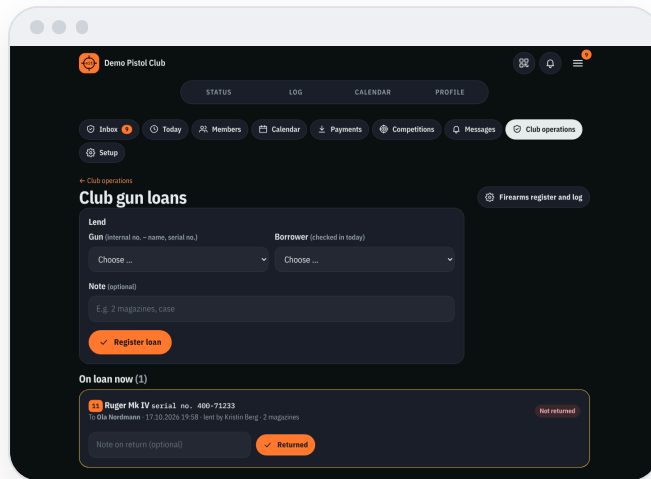

New members and manually registered sessions awaiting approval, gathered in one place. Approve or reject with one tap. You cannot approve your own sessions.

Calendar and duties

Range officers add activities and duties to the calendar, also recurring weekly.

Club gun loans and the till

The person on duty gets access to loans and the till while the duty lasts – without having to be a range officer.

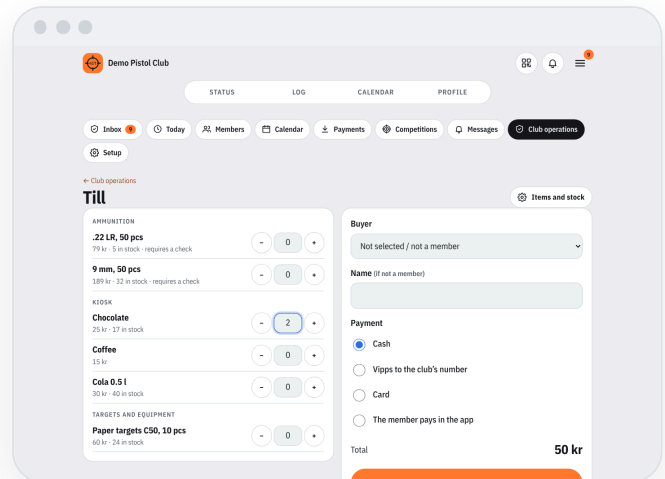

Lend by internal number to checked-in members

Club gun loans

A firearms register with name, internal number and serial number. The person on duty chooses the gun by its internal number, and only members who are checked in today can borrow. The loan is stored with the borrower, date of birth and who lent and received it.

- ✓ A notification to the board, the person on duty and the borrower if a gun has not been returned within 6 hours
- ✓ The log as PDF and Excel for inspection
- ✓ The borrower sees the loan on the home page

The till

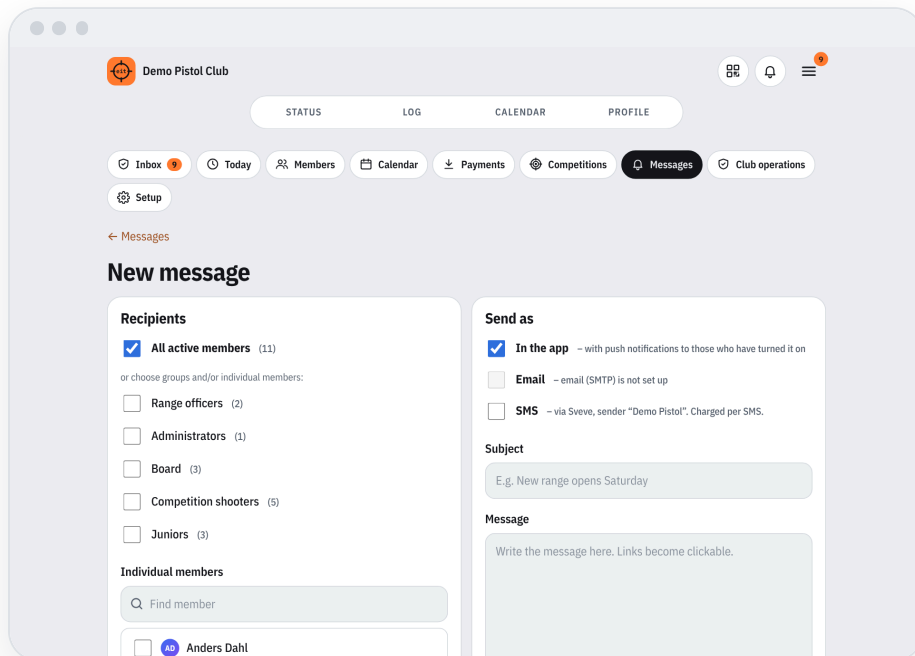

Till

Ammunition, soft drinks, sweets and targets. Payment in cash, with Vipps to the club's number, by card, or charged to the member, who pays with Vipps in the app.

- ✓ Stock is deducted automatically, with a notice when it runs low
- ✓ Items that require a check (ammunition) require the seller to confirm the check
- ✓ Today's sales per payment method, and cancellation that puts the items back

Messages in the app, by email and SMS

The board and administrators send messages to all members, to groups or to individuals – and choose whether they arrive in the app, by email, by SMS or in several places at once.

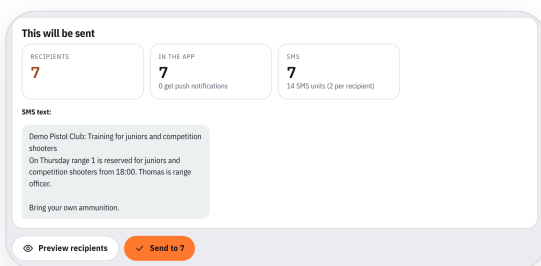

New message: choose recipients and channels

Choose recipients

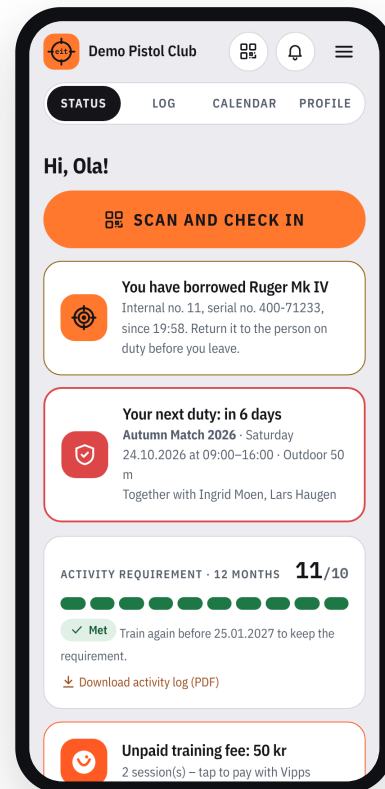

All active members, range officers, administrators, your own categories such as “Juniors”, “Competition shooters” or “Board”, and/or individual members. Nobody gets the same message twice.

See before you send

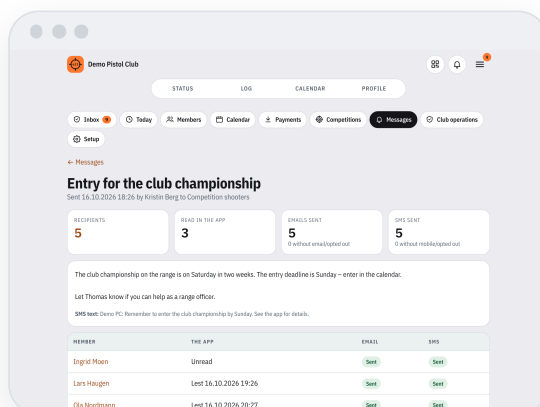

“Preview” shows how many are reached in the app, by email and by SMS, and how many SMS units it will be. You can write a separate, shorter SMS text.

Preview before sending

New message on the home page

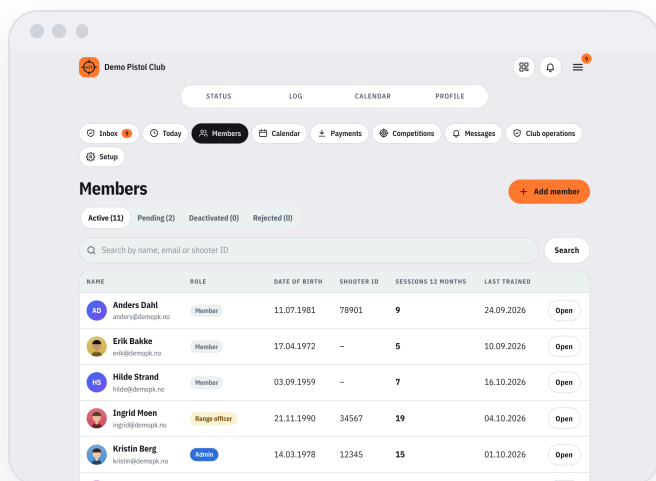

Status per recipient: read, email and SMS

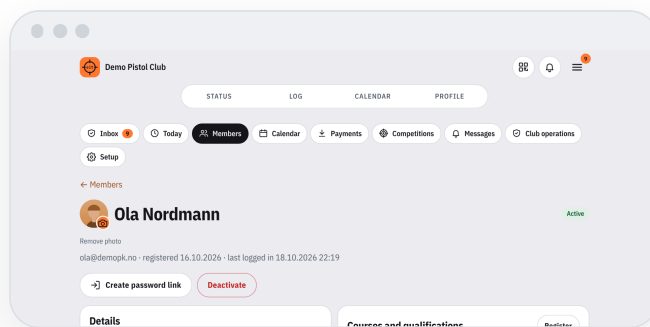

- ✓ **In the app:** the message ends up under “Messages” with a “new” badge, and a push notification to those who have turned it on
- ✓ **Email:** the sender is the club’s name, and replies go to the club’s email

- ✓ **SMS:** via a Norwegian SMS provider, with the club’s name as the sender
- ✓ **The member decides:** emails and SMS from the club can be turned off under My profile

Members and calendar

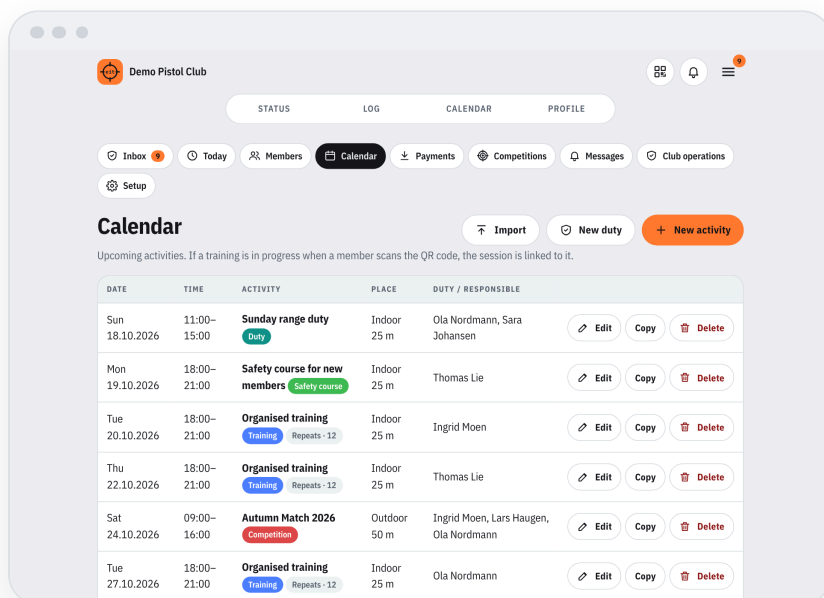

Member list with sessions in the last 12 months

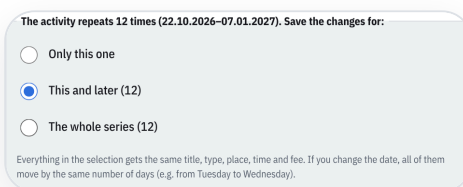

Member page: details, role, exemptions and PIN

- ✓ Approve new members, or add them yourself – they get a link to create a password
- ✓ Roles: member, range officer and administrator

- ✓ Exemption from the training fee, with end date and reason
- ✓ Add sessions for a member, set kiosk PIN and profile photo

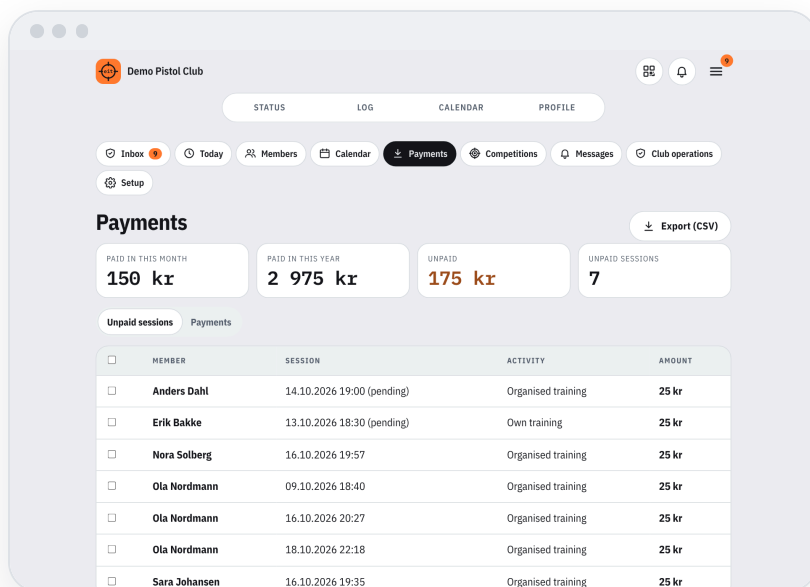

The calendar with Edit, Copy and Delete

Edit a whole series together

Recurring activities can be edited and deleted for “only this one”, “this and later” or “the whole series”. If the date is moved, the whole series moves by the same number of days.

Payments and setup

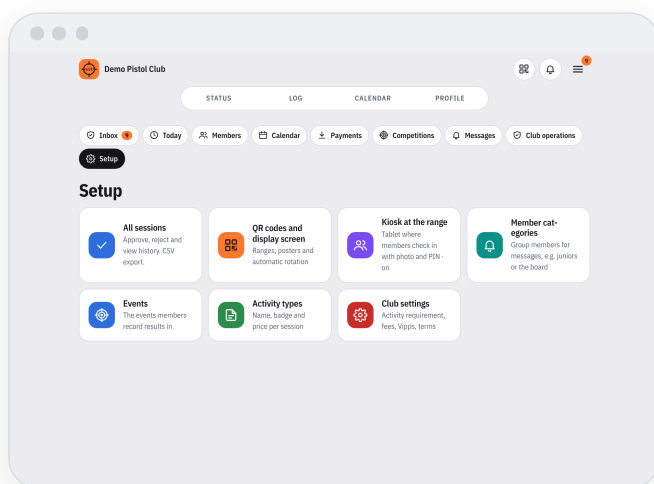

Payments: paid in, unpaid and export

Payments

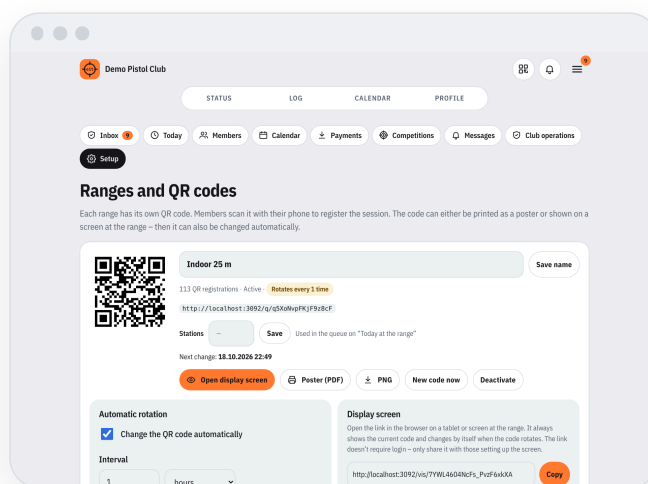

See what has been paid and what is unpaid. Mark cash payments, waive or refund, and export to a spreadsheet (CSV) for the accounts.

Training fee and Vipps

Default price, price per activity, entry fees for competitions and the club's Vipps keys. Can be tested without real money before it is turned on.

All setup in one place

Ranges, QR posters and display screen

- ✓ **QR codes:** one per range, poster as PDF, automatic change and display screen
- ✓ **Kiosk:** turn on the kiosk and choose which range the tablet is at
- ✓ **Activity types:** name, badge (e.g. NSF) and price per session

- ✓ **Activity requirement:** number of approved sessions in a period – shown to all members
- ✓ **Registration:** open self-registration and automatic approval of QR sessions
- ✓ **All sessions:** approve, reject and export the whole history

Competitions – from entry to results

Set up field and range competitions with classes, weapon groups, stations and relays with start times. The target officer registers the results relay by relay, and the ranking follows the NSF rules.

Autumn Field 2026

Results with prizes

- ✓ Entry for your own members and guests from other clubs
- ✓ Automatic assignment to relays and lanes
- ✓ Tied places, DNF, DSQ, DNS and deductions
- ✓ Relay list and results as PDF
- ✓ The competition page updates every 30 seconds

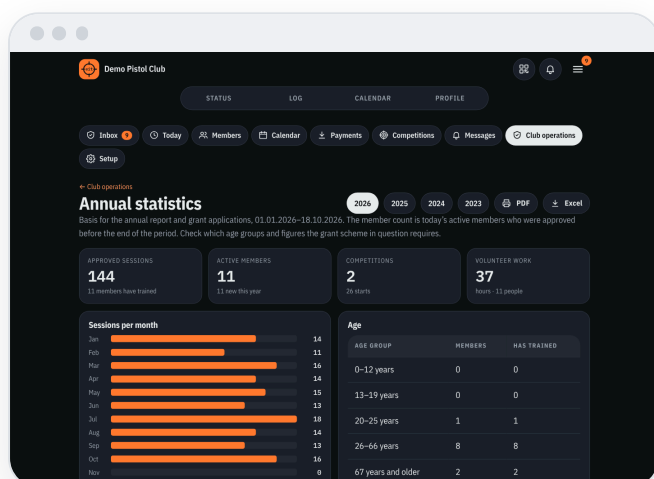

Club operations: courses, membership fees and statistics

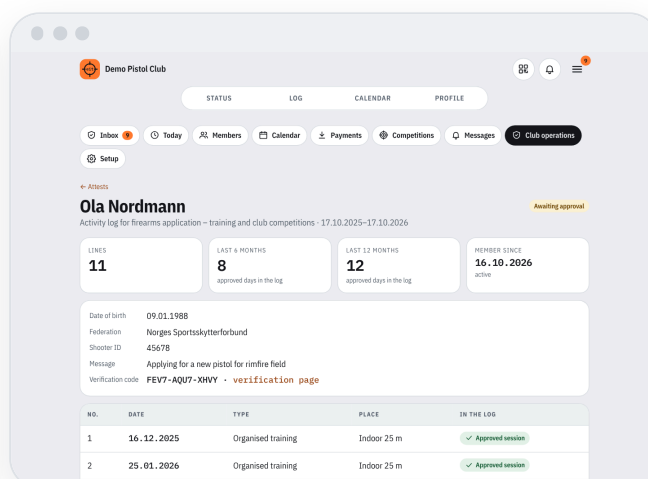

Courses: participants, attendance and passed

Membership fees per category, with reminders

Annual statistics as PDF and Excel

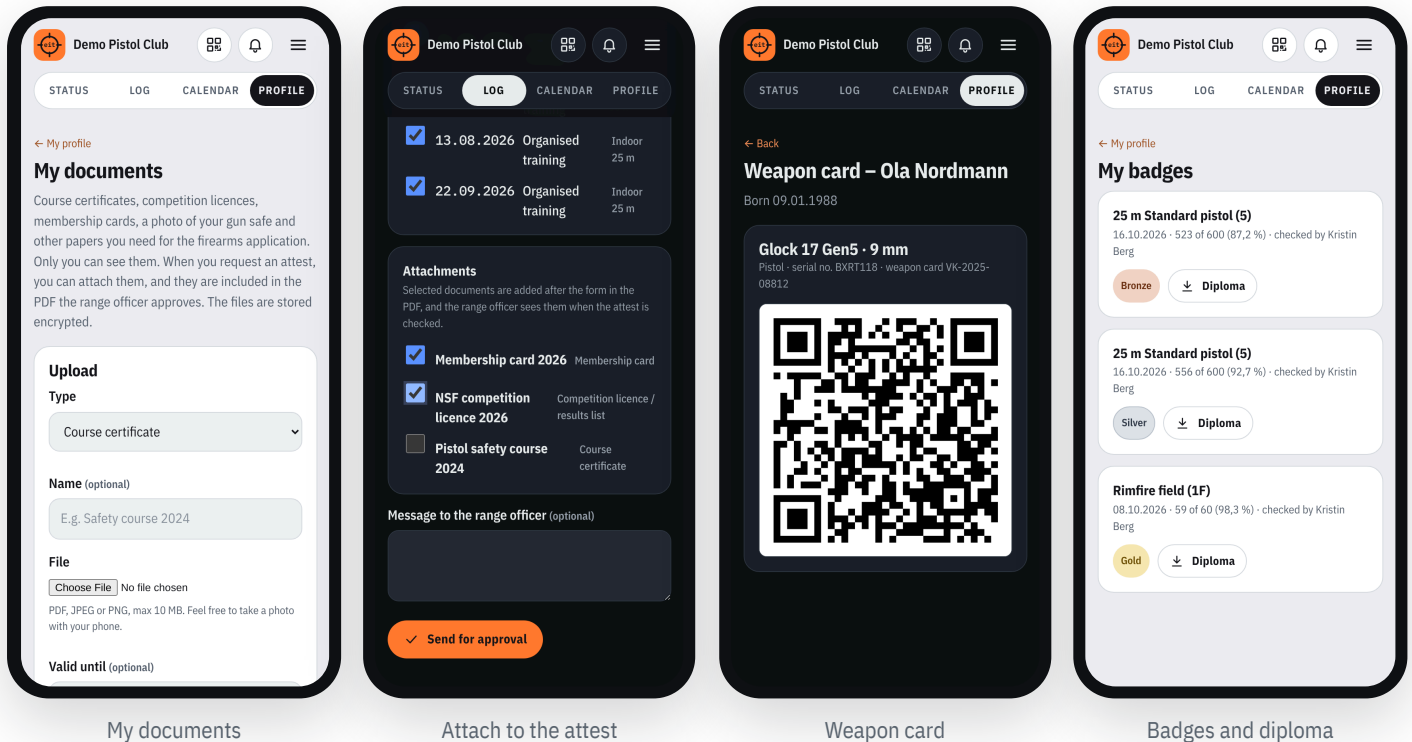

Approving an attest

- ✓ **Courses:** sign-up page, waiting list that moves up, attendance, certificates
- ✓ **Qualifications:** require a course for check-in and range officer status for duty, with expiry date and reminder
- ✓ **Membership fees:** rate per category, Vipps, manual payment, exemptions, reminders and Excel

- ✓ **Work days:** yearly requirement, approval and registration for many at once
- ✓ **Incidents:** notification to the board, notes and closing with measures
- ✓ **Items and guns:** prices, stock, firearms register and loan log
- ✓ **Annual statistics:** sessions, members, age groups, competitions, courses and finances

Documents, weapon cards and badges

Course certificates, competition licences and membership cards are in the app and can be attached to the attest. The weapon card is shown at the till when you buy ammunition, and your badges and diplomas are gathered in one place.

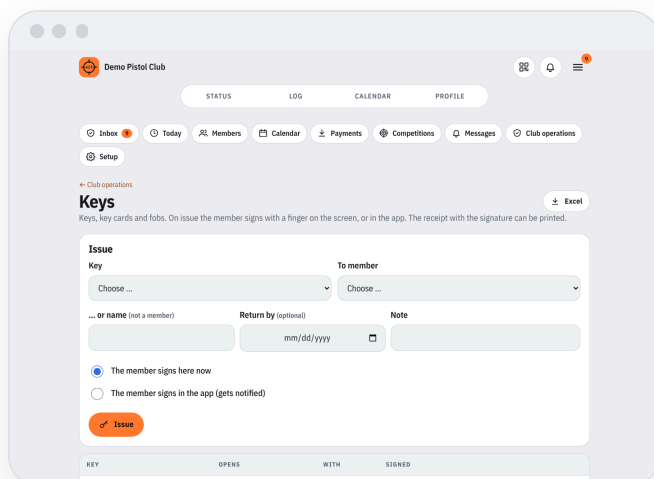

Documents and weapon cards

- ✓ PDFs and images, stored encrypted – only you can see them
- ✓ Selected documents are added at the end of the attest PDF, and the range officer sees them when the attest is checked
- ✓ Your own firearms with calibre, serial number and a screenshot of the weapon card, and a log of cleaning and maintenance
- ✓ The seller only sees the weapon card while the sale is in progress, and the viewing is logged

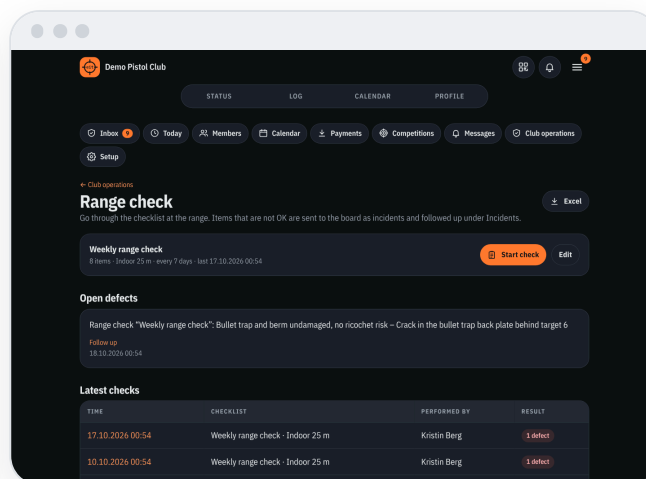

Shooting diary and badges

- ✓ Photos on the sessions in the diary – GPS data is removed before upload
- ✓ Badge shooting is registered by the range officer or the person on duty, and the badge is calculated from the requirements
- ✓ Diploma as PDF, and congratulations in the app
- ✓ Keys you have received from the club are signed in the app

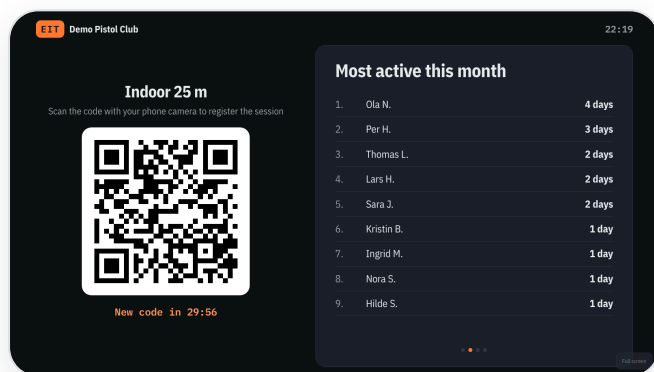

Keys, range checks, badge shooting and big screen

Keys with a signed receipt

Range check – defects become incidents

Big screen in the clubhouse

Diploma for a skill badge

- ✓ **Keys:** keys, cards and fobs – the member signs with a finger or in the app
- ✓ **Range check:** checklists with an interval and reminder; defects are followed up as incidents
- ✓ **Badge shooting:** record as PDF and Excel, requirements per event from the NSF table
- ✓ **Club guns:** QR label on the gun, cleaning, repairs and zeroing, import from Excel

- ✓ **Ammunition:** supplier and purchase price, internal use and accounts per calibre
- ✓ **Big screen:** today, most active, milestones, upcoming activities, weather and live results
- ✓ **Messages:** can be scheduled and sent at a set time
- ✓ **Calendar:** import from Google, Outlook and idrettenonline (.ics)
- ✓ **Export:** all the club's data as spreadsheets and JSON

Privacy and security

EIT is run centrally by EIT. Each club has its own data, and members only see their own club. The data is not shared with others, beyond what Vipps needs when you pay or log in with Vipps.

What is stored

Name, email, date of birth, shooter ID, mobile (optional, used for SMS from the club), profile photo (optional) and your sessions. Date of birth and shooter ID are needed for the activity log for the firearms application.

Who sees what

Only logged-in members of the same club see names and photos. Range officers and administrators see the member list and the sessions. Who is on duty is visible to all members.

Secure login

Passwords are stored encrypted, and “Log in with Vipps” is possible. If you change your password, you are logged out on all other devices. Repeated failed attempts are stopped.

Control of sessions

QR codes can change automatically, manual sessions and attests must be approved, and nobody can approve their own. Important changes are logged.

Encrypted storage

Documents, weapon cards, diary photos and signatures are stored encrypted, and so are the clubs’ Vipps and SMS keys. The range officer only sees documents you attach to an attest yourself.

Anonymous incidents

If an incident report is sent anonymously, the name is not stored anywhere – not even in the log.

Central operation

EIT takes care of operations and updates. The club needs no server of its own.

Get started

- 1 Sign up** with the link from the club, or scan the QR code at the range.
- 2 Add the app to your home screen** and turn on reminders under My profile.
- 3 Fill in your date of birth and shooter ID**, and add a profile photo if you like.
- 4 Scan the QR code next time you are at the range** – that’s all.

Questions? Talk to a range officer or contact the board. The screenshots in this presentation are from a demo club with fictitious members.
